

Prsty

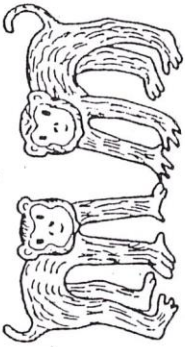

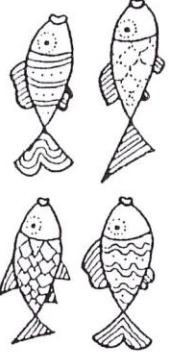

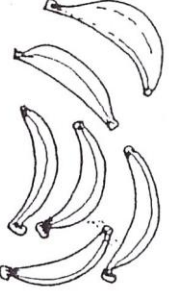

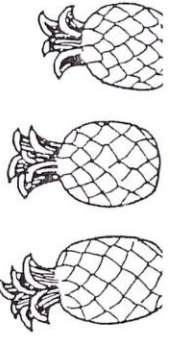

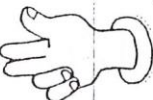

Počítej po jedné obrázku v rámečku a zdvižené prsty na ruce. Nakresli stejný počet teček.

Vzor:

Spoj správně

Do mřížky vždy nakresli stejný počet teček, jako je obrázků v rámečku. Potom spoj mřížku podle vzoru s odpovídajícím počtem prstů.

					
					
					

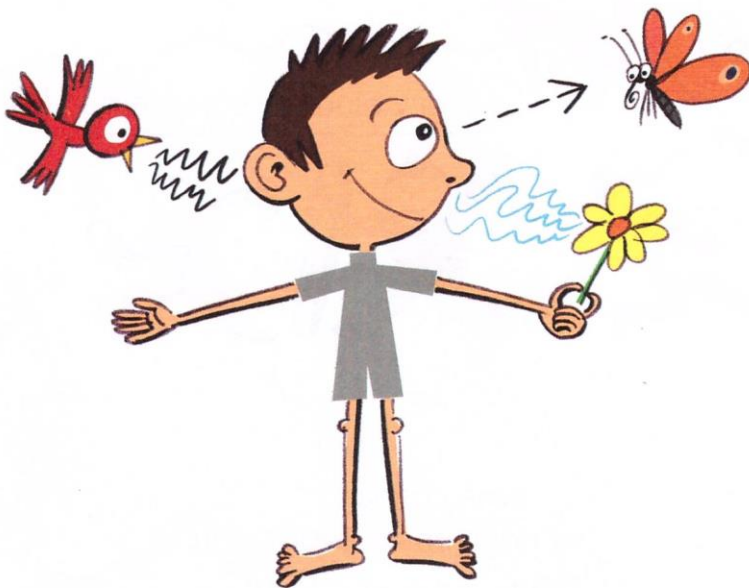

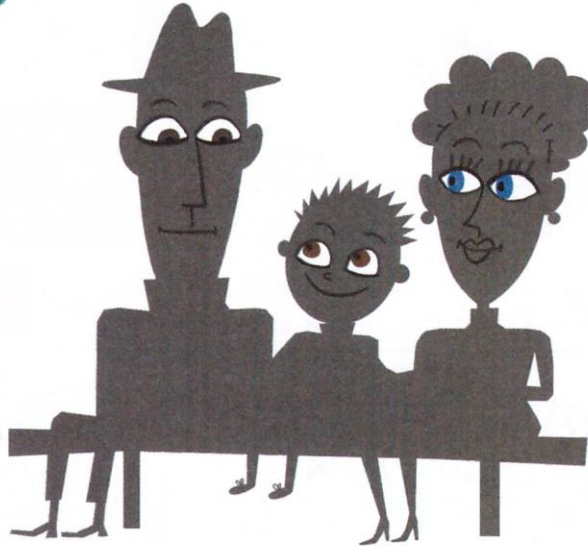

Co je to?

Kdo zlá slova používá,
tak ten ho prý ostrý mívá.
Tenhle sval vždy hbitý je,
slovíčky se trénuje.
Pomáhá nám při žvýkání,
při jídle i povídání.
(χαλδο!)

Dvě lampičky rozžehneme
kdykoli a kde jen chceme.
Jsou jako dvě kuličky,
mají čočky, zorničky,
dívají se do všech stran –
má je dítě, paní, pán.
(δω)

Kdo nám naše tělo řídí,
dobře slyší, cítí, vidí?
(διδιχ)

Odloží věc, zas ji zvedá,
odložit se sama nedá!
(δχου)

Kdo nám naše tělo nosí?
Poznáte je, když jste bosí!
(λχου)
